## Reach Beyond Words...

While daily newspapers search for a new life raft, community and niche publications are waving from shore.

During the 14-year life of Google, magazine readership has actually increased by double digits, and the increase is highest for community and niche publications.

The success of any community publication comes down to trust, and we value the high amount of it placed in us as the voice of communities throughout Arizona.

## Changing lives one child at a time.

Our **FREE** 20 week program incorporates supervised workouts, nutrition education classes from dietitians and, most importantly, gives overweight to obese children the opportunity to save themselves from early death due to Type 2 Diabetes, heart attacks and other weight-related issues.

### You can help.

By getting involved in our nonprofit, through volunteering, sponsoring events and/or making a donation, you are helping change the lives of children who may not have otherwise had the opportunity. Contact us today to learn how you can give back.
